

Chacewater School – LEAP into Learning

Term: Spring 2

Class: Seedlings

Theme: The Potting Shed

On this page you will find an outline of our learning this half term in Seedlings.

Number and Place Value within 50

We will be continuing to recognise numbers within 50 and working on addition and subtraction.

Measurement: Length, Weight, Height, Volume

We'll compare, describe and solve practical problems for length and height, mass and weight, capacity and volume.

Science: Plants

We'll be learning all about the structure of plants and naming their parts, including what parts we eat, as well as being able to identify deciduous and evergreen trees. We will spend lots of time outside looking at different plants.

Design and Technology: Cooking and Nutrition

We will be creating fruit smoothies this half term! We will learn how to identify fruits, taste different fruits, and design and create our own yummy smoothies.

English – Tell Me a Dragon

We will be using the beautiful book "Tell Me a Dragon" by Jackie Morris to help us develop our creative writing skills. We will be using adjectives to design and describe different dragons. We will continue learning how to use different suffixes in our writing, such as ing, ed, er and est, and will begin to use capital letters for names.

Computing: Data and Information

We will develop our understanding of what data is, and how we can organise and group data. We will learn how to label, group and compare sets of objects.

Religious Education: Who is Jewish and how do they live?

We'll be learning what objects are precious to Jewish people and why. We will also be learning about the prayer 'The Shema', and what it means to be Jewish people.

PSHE: The importance of family

We'll be learning about similarities and differences between families and what makes them all so special.

Chacewater School – LEAP into Learning HOME LEARNING

Term: Spring 2

Class: Seedlings

Theme: The Potting Shed

Alongside regular reading, and maths home learning choose at least one of the following to complete over this half term. You might even be inspired and choose more than one!

Local plant/tree fact file

Look out for samples of flowers and trees on your walks. Take photos, make drawings, write labels, create a collection. Can you make a fact file to share?

Click here to play.
<https://play.numbots.com/#/intro>

Visit a Garden

See how many different kinds of plants and trees you can spot. Which are your favourite? Collect leaves and link them to their tree. Are they evergreen or deciduous?

Plants

Plant and grow your own plants (cress, potatoes, peas etc). Take photos of their development and write a booklet about the steps you took to grow and look after it.

Design and Technology

What fruits can you find at the supermarket? How do you know they are fruits?

Taste test some new fruits and describe them!

Reading

Can you find a non-fiction book about plants at the library and read it with your grown-ups? Write 1 fact you have learned about plants from your books.

Computing

Explore plants using technology! Take photos of different plants, or find pictures online using a safe search. Can you group and label your plants in different ways (such as colour, size, type)?

Maths

Does the tallest person in your house wear the biggest gloves?
Which cup in your cupboard holds the least liquid?
Which vegetables weigh more and which weigh less? Use your new maths skills to investigate these problems.

PE

Practise your balancing skills - try a Cosmic Kids Yoga video:
